Funding, Grants & Partnership Status Report

Prepared for: Tom Ugbodaga, Shareholder & CEO

As of: August 23, 2026

Honest Headline

As of today, zero confirmed funding has landed. One VC (LoftyInc Capital) sent a standard acknowledgment, not a commitment. Everything below is either submitted-and-waiting, drafted-but-not-yet-submitted, or a live partnership issue being worked through. This report separates the realistic near-term paths from the long-shot/slow-moving ones so effort can be prioritized honestly.

1. Applications Already Submitted — Awaiting Response

Program	Amount	Submitted	Expected Response	Realism
Speedinvest (Vienna VC)	Undisclosed (equity)	Jul 30, 2026	Typically 4-6 wks for VC Type	Low - no portal, no named contact
Founders Fund Africa 2026	Undisclosed (equity)	Jul 30, 2026	Post their Aug 28 deadline	Medium - real program, competitive
Visa Africa FinTech Accelerator/mentorship	Program/mentorship	Jul 31, 2026	Cohort selections typically 6 wks	Medium - strong brand value if selected
Africa Fintech Foundry (\$100,000)	\$100,000	Deadline was Jul 31, 2026	Extensions requested	Low - direct check - deadline has passed

2. Drafted PDFs Ready — Not Yet Confirmed Submitted

These have full application PDFs already built. Submission itself (via each program's actual portal/contact) has not been confirmed completed — this needs direct action, not more drafting.

Program	Amount	Deadline	Status	Realism
FID (Fund for Innovation up to €3,200,000	up to €3,200,000	Rolling, effectively Sep 1, 2026	PDF ready, submission not confirmed	Confirmed, JRC Ed. deadline in 9m
Gates Foundation SIF	up to \$2,000,000	Portal-only, no fixed date	PDF ready, submission not confirmed	Confirmed - extremely competitive global
Rockefeller Foundation	up to \$1,500,000	No fixed date	PDF ready, submission not confirmed	Confirmed without a warm intro
Mastercard FRP	up to \$500,000	No fixed date	PDF ready, submission not confirmed	Moderate - direct relevance to payments

3. Not Yet Submitted / Future Pipeline

Program	Amount	Deadline	Notes
IFC SME Growth Accelerator	up to \$500,000	Nov 15, 2026	Plenty of runway - not urgent yet
Horizon Europe Africa Initiative IV	up to €2,000,000	TBD	Blocked on FISRI co-application response - see section 4

4. Named Partner Contacts — Live Threads

FISRI (fisri@glos.ac.uk) - EU Horizon Europe co-application partner (University of Gloucestershire alumni channel). Email sent Jul 30, 2026. No response yet as of Aug 23 - this is now over 3 weeks with silence, worth a polite direct follow-up rather than waiting further.

Paystack (channelpartnerships@paystack.com) -

Merchant Agreement signed Jul 14, 2026. Initial rejection Jul 31 (cited "crypto-based payment infrastructure" - a mischaracterization). Correction email sent and confirmed escalated to their internal engineering team. Current status: awaiting their compliance/engineering resolution - the Paystack Live Mode Activation Monitor automation checks for this daily but has not yet found a confirmation email.

Kwati Group (Wisdom Kwati) - \$1,000,000 real-estate JV with ZeroPay equity sweetener. This negotiation is being handled directly by AVM Morgan, not tracked as an agent task - status should be checked with AVM Morgan directly, not assumed from this report.

LoftyInc Capital (analyst@loftyinc.vc) - Replied Aug 19, 2026 to the mass VC outreach with a standard "submission is in review" acknowledgment. Not a commitment, not a rejection - genuinely just an auto-acknowledgment. No further action needed from our side until they follow up.

5. New Outreach Ready to Launch (Not Yet Sent)

A fresh LinkedIn + X outreach sequence targeting 4 deep-tech VCs (Shahin Farshchi/Lux Capital, Trae Stephens/Founders Fund, Lee Edwards/Root Ventures, Ash Egan/Archetype) is fully drafted, leading with the reproducible TLA+ formal verification proof. Nothing has

been sent yet - this is fully within Tom's control to fire whenever ready, no additional drafting needed.

Bottom Line - What Actually Needs Action This Week

1. FID (€3.2M) deadline is effectively Sep 1 - the PDF is ready, this needs to actually be submitted through their real portal in the next few days, not just drafted.
2. FISRI has gone quiet for 3+ weeks - a direct, polite follow-up email is overdue.
3. Africa Fintech Foundry's extension status is unconfirmed - worth a direct check rather than assuming it's still open.
4. The LinkedIn/X VC outreach is sitting ready with zero further work needed - the only blocker is Tom's decision to fire it.

*BETONIQ WEST LTD - RC 1496603 - Funding status report,
compiled for Tom's review.*
