

Your ID Verification Steps (Post Office)

Step 1: Find the right page

On GOV.UK One Login, type "Companies House" in the search box, then tap the search icon. Click the result about proving your identity.

Step 2: Choose the easy way

On that page, click the line about "if you don't have these types of ID" or "other ways to verify." Do NOT click the main blue button.

Step 3: Answer a few questions

It will ask what ID you have. Choose "passport" (or driving licence).

Step 4: Pick Post Office

When given the choices, select the Post Office option.

Step 5: Type in your ID details

Type the details printed on your passport: your

name, passport number, and expiry date. No photos or scanning here, just typing.

Step 6: Choose a Post Office

Pick a Post Office branch that's easy for you to get to.

Step 7: Check your email

You will get an email right away with a letter attached. Save it on your phone, or print it if you can.

Step 8: Go to the Post Office

Take that letter (on your phone or printed) AND your real passport (not a photo of it) to the Post Office you picked. Any branch offering this service works, even if it's not the exact one you chose.

Step 9: At the counter

Show the letter. Staff will scan a QR code on it, then take your photo and scan your passport. That's it, you're done at the Post Office.

Step 10: Wait for the result

About a day later, you will get another email telling you if it worked.

Step 11: Finish online

Click the link in that email, sign back in, and it will show you your personal Companies House code. Send that code to Tom.

IMPORTANT: You have 21 days from booking the Post Office visit to go and finish it, or you will have to start over.
