

THE REAL ESTATE ECOSYSTEM BLUEPRINT

How ZerôPâÿ Money and BETONIQ INVEST work together — BETONIQ WEST LTD

STRICTLY PRIVATE & CONFIDENTIAL

The relationship between our two platforms is the core of our capital story: **ZerôPâÿ Money** is the secure financial highway that moves capital with zero friction, and **BETONIQ INVEST** is the high-yield institutional destination that puts that capital to work in real, vetted real estate assets.

WHY IT WORKS

ZerôPâÿ removes the friction and cost of moving capital across borders — especially where connectivity or banking rails are unreliable. BETONIQ INVEST then channels that capital into de-risked, business-case-backed real estate deals like The 77 Golf & Country Estate and the Kuje 300ha site.

ONE ECOSYSTEM, ONE STORY

Instead of two disconnected pitches, investors see a single vertically-integrated flow: money movement infrastructure feeding directly into a curated pipeline of institutional-grade real asset opportunities.
